

BEASY NEWS RELEASE

MARCH 2007

BEASY IN SOUTH AMERICA

BEASY is pleased to announce the recent agreement with Engineering Simulation and Scientific Software (ESSS), to become a distributor of BEASY products. BEASY provides powerful software applications which supply the tools needed to quickly and accurately simulate the life and performance of products. Applications include: Mechanical Analysis, Durability and Crack Growth Analysis, Corrosion and Cathodic Protection, Corrosion Related Electric & Magnetic Fields and Acoustic Design and Noise Control.

“We are very excited about this agreement with ESSS, we believe it to be of great long-term benefit, not only to BEASY customers but to all customers of ESSS“- Dr R Adey, Managing Director of BEASY

ESSS brings to the South American market cutting edge technology for numerical simulation of engineering problems and scientific software development. For the past 11 years they have been servicing a wide variety of markets such as oil, aerospace, automotive, appliances and power generation industries. ESSS have considerable experience in understanding their customer’s requirements and advising on the engineering services and training best suited to satisfy these needs.

ESSS have been working with structural analysis, CFD, Optimization, advanced visualization. They are also a member of the Technet Alliance, having implemented CAE tools in more than 300 commercial companies and 100 universities throughout the whole of South America. ESSS have offices in Florianópolis, São Paulo and Rio de Janeiro and employ more than 70 people, most of them with advanced degrees.

‘After a deep research on the tools available on the market we chose BEASY products to complement our solution portfolio. The decision was based on the quality of the products and BEASY’s very strong technical background that will certainly compliment our ability to service the market with high-end tools and excellence in services to a broader range of applications.’ - Sergio Rodrigues, Director of Structural products ESSS
